

HCS Summer Reading Challenge!

Dear Families,

We are excited to announce our virtual Summer Reading Program for students rising up into the 1st-5th grades. Summer reading is a great way to keep your child engaged and motivated by wonderful stories, while helping them maintain important academic skills over the summer months. Students are encouraged to read every day.

- Students rising up into 1st - 3rd grades will be using our RAZ Plus Kids online reading program. Students are required to read 10 minutes each day.
- Students rising up into 4th and 5th grades will be using the Reading Plus program, and will be required to complete 2 reading lessons and one vocabulary lesson each week. (Students are not limited to just these lessons, but may do as many as they like.)

Each of our online reading programs will keep track of the minutes read and the progress made by each student. Students will be receiving a completion grade for meeting the requirements listed above. In our effort to encourage reading, we are challenging students to read for as many minutes as they possibly can. During the first week of school, we will choose the top three students in each homeroom class and will reward them with a very special prize!

Thank you so much for your help in partnering with us to encourage your child's learning. Have a wonderful summer!
